289 ✻ **MR. K. A. MATHEW** (*Tiruvalla*): Will the Government be pleased to state whether they are aware that boatmen are put to much suffering during night time owing to want of lighting arrangements underneath the Thondra bridge and that boats have capsized several times at the dangerous turn beneath the bridge?

DEWAN BAHADUR L. VENKATAKRISHNAN: Yes, but not due to want of lights.

MR. K. A. MATHEW: May I know due to what causes these accidents occur

DEWAN BAHADUR L. VENKATAKRISHNAN: I am surprised that accidents like this should occur when the span of the bridge is so large. I do not think accidents could occur unless the vessels are badly handled.

MR. K. A. MATHEW: Will the Chief Engineer take it from me that I have heard from the boatmen themselves that they found it difficult to take boards when the floods are on.
